FOR IMMEDIATE RELEASE

### **Chesson Labs Submits FDA 510(k) Filing for its Liquid Bandage Product**

**DURHAM, NC, USA. January 6, 2009** ----- Chesson Labs announces that it has made a 510(k) submission to the U.S. Food and Drug Administration (FDA) for its Liquid Bandage product. The 510(k) submission begins a review process which takes approximately 90 days, during which the FDA will determine whether the product can be marketed as a Liquid Bandage.

This is a significant milestone for Chesson Labs. It is the first medical device submission that the Company has made to the FDA. The Company anticipates additional filings to the FDA as it continues to expand its product portfolio.

### **ABOUT CHESSON LABS**

Chesson Laboratory Associates, Inc. is a privately funded healthcare products company founded in 2006. Chesson Labs' proprietary products in development for use by healthcare professionals and consumers are based on innovative patented and patent-pending polymer-based technology. The mission of Chesson Labs is to improve global healthcare by becoming a market leader in the development and delivery of innovative polymer-based medical products.

Chesson Labs is headquartered in the University Tower in Durham, NC, with a research and development facility less than 10 miles away. For more information, visit [www.chessonlabs.com](http://www.chessonlabs.com).
